

LARSEN FIGHTS FOR **OVERSIGHT AND ACCOUNTABILITY FOR ICE**

President Trump's immigration enforcement agenda has brutalized families and children here in Northwest Washington and across our country.

I am demanding that ICE follow the same rules as every other law enforcement agency.

I will continue to oppose any **full-year** funding for the Department of Homeland Security and ICE that fails to create oversight and accountability. I am fighting for reforms to DHS to:

- Ensure **ICE and CBP immediately leave Minneapolis** and stop terrorizing American cities and communities;
- **End arrests without judicial warrants** and, outside of exigent circumstances, arrests at sensitive locations such as churches, shelters, schools, and courthouses;
- Ensure **full, independent, and transparent investigations** into all DHS-related shootings, including federal cooperation with state and local investigations, and ensure that federal agents are properly trained, appropriately supervised, and held fully accountable for their actions;
- **End the detention and deportation of U.S. citizens;**
- **End the anonymity of federal agents** by requiring them to remove their masks and provide identification;
- Provide **robust minimum standards of care at detention facilities** – including access to medical care, clean water, edible food, and protections against abuse – and ensure independent investigations of deaths.

ISSUE

MY WORK

ICE Enforcement

President Trump is using masked ICE agents in unmarked vans to occupy American cities, kill U.S. citizens and brutalize peaceful protestors.

- I support legislation to **prohibit ICE agents from wearing masks** during arrests and require DHS officers to use body and vehicle cameras during every immigration enforcement operation.
- I support legislation that only allows ICE to use **force only when no reasonable alternative exists** and requires federal immigration officers to be trained in de-escalation.
- I supported **impeaching former DHS Secretary Kristi Noem** because of the death and chaos that her leadership brought to communities across America.

DHS Detention

DHS is detaining immigrants and U.S. citizens at overcrowded facilities and failing to provide medical services, food, and legal counsel to individuals.

- **I conducted first-hand congressional oversight** at the privately-run ICE facility in Tacoma.
- I support legislation to **end child and family detention** and prohibit DHS from using private, for-profit facilities for immigration detention.
- I support legislation that will require DHS to provide detained individuals with **in-person medical exams, safe drinking water, adequate meals**, private and sanitary restrooms and basic personal hygiene products.

Due Process for Immigrants

ICE agents have disregarded constitutional protections for noncitizens and U.S. citizens alike.

- **I have helped individuals** detained by ICE and CBP in Northwest Washington **access legal counsel**.
- I demand **full, independent investigations** into the killings of Renee Good, Alex Pretti and other DHS-related shootings, and full accountability for those responsible.
- I support legislation to require DHS to provide individuals in immigration detention with **unlimited communication with legal counsel**.
