Frequently Asked Questions

What is Community Project Funding?

Community Project Funding requests are earmarks for specific projects members request through annual appropriations bills. Appropriations bills determine the spending levels for the federal government for the next fiscal year. For the past two years, the House Appropriations Committee allowed members to request funding for important local projects.

Will Community Project Funding happen again this year?

Yes! This guide will give more information about what types of projects are eligible for Community Project Funding this year.

Who is eligible to apply for Community Project Funding?

State, local or Tribal governments and non-profits can apply for Community Project Funding. For-profit entities are not eligible.

How do I apply for Community Project Funding?

You can apply for Community Project Funding on our website at larsen.house.gov/fy2024-community-project-funding-requests. We recommend reviewing this form to ensure you have all the information needed to apply.

What is the deadline for applying for Community Project Funding?

You must apply by 5 PM PST on Tuesday, March 14, 2023.

Are there limitations on what Community Project Funding can be used for?

Yes. You need to request funding through specific accounts within the budget that have restrictions on what kinds of projects are eligible. Later in this guide, there is a section on eligible accounts that can help you determine if your project is eligible for any of the earmarkable accounts.

Why is an account that was available last year not included this year?

Each year, the eligible accounts are determined by the Appropriations Committee. This can occasionally lead to differences in which accounts are eligible. Because the House now has a different party in the Majority, there were significant changes this year.

The following accounts are no longer eligible:

- National Oceanic and Atmospheric Administration (NOAA) Operations, Research and Facilities (NOAA)
- National Institute of Standards and Technology (NIST) Construction of Research Facilities (NIST)
- Defense Research, Development, Test and Evaluation Accounts (Army, Navy, Air Force, Space Force, Defense-Wide)
- Department of Energy (Energy)
- Federal Buildings Fund, New Construction, Major Repairs and Alternations and Basic Repairs Accounts (General Services Administration)
- National Historical Publications and Records Commission (Archives and Records Administration)
- Small Business Initiatives (Small Business Administration)
- Land and Water Conservation Fund (Interior)
- State and Private Forestry Projects (Forest Service)

- Save America’s Treasures (National Park Service)
- Workforce Innovation and Opportunity Act Training and Employment Services (Labor)
- Health Facilities Construction and Equipment (Health Resources and Services Administration)
- Health Surveillance and Program Support (Substance Abuse and Mental Health Services Administration)
- Child Abuse Prevention (Administration for Children and Families)
- Social Services Research and Demonstration (Administration for Children and Families)
- Aging and Disability Services (Administration for Community Living)
- Elementary and Secondary Education Innovation and Improvement (Education)
- Fund for the Improvement of Postsecondary Education (Education)
- Veterans Affairs Minor Construction Programs (Veterans Affairs)

Are there any newly eligible accounts this year?

Yes – new accounts include the following:

- Water and Waste Disposal Grants (Agriculture, Rural Development, Food and Drug Administration and Related Agencies – Rural Development)
- Coastal Zone Management (Commerce, Justice, Science and Related Agencies – NOAA)
- Consolidated Rail Infrastructure and Safety Improvements – (Transportation, Housing and Urban Development – Federal Railroad Administration)
- Port Infrastructure Development Program (Transportation, Housing and Urban Development – Maritime Administration)

How much funding can I request?

The funding guidelines depend on the account you are requesting funds from. In the past, Rep. Larsen’s requests ranged from \$254,560 to \$5,280,000. The Appropriations Committee may reduce the amount requested due to budget constraints.

Community Project Funding is requested for projects where private or non-federal funding is not available or sufficient. Typically, Community Project Funding will only provide a partial contribution to the total cost of a project. Several funding accounts require a state, local, or private match for an entity to receive funding.

When will I know if Rep. Larsen chose my request?

Rep. Larsen’s Community Project Funding requests will be submitted to the relevant subcommittees by the end of March. You will receive notification once Rep. Larsen makes his decision on the final projects whether or not your project was chosen.

If Rep. Larsen chooses my project, will it end up in the final legislation?

There are multiple steps in the process, many of which are not controlled by our office. The House Appropriations Committee may choose to not include every project submitted by a member. Following that, it could be stripped out of the legislation either when the bill goes before the full House or during negotiations with the Senate.

When will Appropriations bills be passed through Congress?

Theoretically, all Appropriations bills are supposed to be passed in “regular order,” meaning full passage of all 12 bills through both chambers which are then signed by the president by the start of the federal fiscal year on October 1. However, Congress frequently does not meet that deadline. When the deadline is not met, Congress can pass a continuing resolution (CR) to fund the government on a short term basis while negotiations continue. These can extend the timeline for several months, and in recent years, final appropriations have been passed in December or in the following year. It could also lead to a government shutdown if the Appropriations bills are not passed and there are no CRs passed.

If our project is included in legislation passed by Congress, what is the process and timeline for receiving the funding?

In general, Community Project Funding recipients will be contacted by the agency that oversees the account you received funding from. The agencies cannot contact you prior to the legislation being passed into law. Once it is passed into law, the timeline varies between departments and agencies – some may start the process within a few weeks, while others may take several months after the bill’s enactment into law.

Once you are contacted by the relevant agency, you will have to complete and submit a grant application outlining the project’s goals, cost estimates and other information to ensure it meets federal requirements. The process for receiving project authorization and accessing funding could take months. Please keep this in mind when submitting a request.

Can I get reimbursed for project costs that were taken prior to getting funding obligated?

No. In general, you will not be able to be reimbursed for any money spent prior to receiving project authorization from the relevant agency.

Can I request operational costs for a project?

We recommend checking the guidance of the account to see whether operational costs are allowed under the guidance. However, Rep. Larsen is more likely to choose projects that have long term benefits. If you are requesting short term operational costs, such as staffing, it is less likely to be chosen. If you are seeking operational costs, we recommend explaining how you will continue to fund operational costs after the Community Project Funds run out.

How many projects can Rep. Larsen request?

Rep. Larsen can submit 15 Community Project Funding requests to the Appropriations Committee. Because the office receives dozens of requests each year, Rep. Larsen is only able to submit a fraction of the project requests received.

How can I make my application more competitive?

One of the main considerations for our office is whether the project has community support. This support could be shown through:

- Letters of support from elected community leaders
- Press articles highlighting the need for the specific project
- Resolutions passed by local/county/state/tribal governments

- Projects listed on community development plans, state intended use plans, and other publicly available planning documents
- Support from local newspaper editorial boards, etc.

Another major consideration is whether the project is ready to receive funding – will you be able to obligate all funding within a year? Additionally, what are the time constraints for the project? If the project must be completed within a couple months, Community Project Funding is not the best avenue.

Rep. Larsen’s office also carefully reviews the scope of a project to ensure it fits within an eligible account. We recommend you look over the guidance in the eligible project accounts to ensure the project fits within the restrictions of the account you are seeking. If you are having trouble determining what account could fit for your project, you can reach out to the appropriate staff member listed in the staff contact list later in this guide.

It is unlikely that Rep. Larsen will choose the project if it is located outside of Washington’s Second Congressional District.

Lastly, we recommend giving as much information and detail as possible. The more we know about the project and how it will benefit the district, the more likely Rep. Larsen is to choose it.

[Are Community Project Funding requests publicly disclosed?](#)

Yes, all requests for Community Project Funding must be listed on Rep. Larsen’s website, including the name and address of the requestor, the amount requested and the justification for the use of taxpayer funds.

[Can I submit my request to other Congressional offices?](#)

Yes. We encourage you to submit your request to Senators Murray and Cantwell as well as Rep. Larsen and any other member of the House that might be relevant.

Community Project Funding Eligible Accounts

Agriculture, Rural Development, Food and Drug Administration and Related Agencies Subcommittee

You can view Committee Guidance for the Agriculture, Rural Development, Food and Drug Administration and Related Agencies Subcommittee [here](#) or read a detailed summary below:

Community Facilities Grants

- **Department:** Department of Agriculture
- **Agency:** Rural Development
- **Description:** Community Facilities Grants can be used to purchase, construct or improve essential community facilities in rural areas, including purchasing equipment and paying for other related project expenses.
- **Eligible Projects:** Eligible community facilities include, but are not limited to, medical or dental clinics, healthcare facilities, police or fire departments, and public works vehicles.
- **Details and Requirements:**
 - All projects must serve a rural area, including cities, villages, townships and federally recognized Tribal lands with no more than 20,000 residents.
 - Priority will be given to essential projects, such as those focused on public health and safety.
 - There are cost share requirements that are calculated on a graduated scale with smaller communities with the lowest median household incomes being eligible for projects with a higher proportion of grant funds. You can find the cost share requirement for your community by looking [here](#).
 - You must be able to certify that you cannot finance the project from your own resources and credit is not otherwise available from non-Federal sources.
 - Community Facilities grants cannot be used to pay initial operating expenses or annual recurring expenses, refinance existing debt, pay interest, build or repair facilities in non-rural areas or pay for construction costs of facilities that will be used for commercial rental space.
 - Please contact the State Rural Development Office to discuss the project and confirm eligibility. Contact information is included in resources below.
- **Cost Guidelines:** In Fiscal Year 23, the average funding level was about \$1.3 million. The Committee may consider different funding caps this year.
- **Resources:** The State Rural Development Office is a valuable resource to answer program questions. You can find contact information for the Washington state office [here](#). If you are not receiving a response or they are unable to answer specific questions, please contact our office.

ReConnect Program

- **Department:** Department of Agriculture
- **Agency:** Rural Development
- **Description:** ReConnect broadband pilot grants fund projects to increase broadband access in rural areas.
- **Eligible Projects:** Eligible uses include construction, improvement, or acquisition of facilities and equipment needed to provide sufficient broadband access to rural areas.

- **Details and Requirements:**
 - Rural areas are defined as any area which is not located within a city, town, or incorporated area that has a population of greater than 20,000 inhabitants.
 - Sufficient access to broadband is defined as areas where more than 90% of households have fixed, terrestrial broadband service delivering at least 25 Mbps downstream and 3 Mbps upstream. Mobile and satellite services are not considered in the determination of sufficient access to broadband.
 - Stand-alone middle-mile projects are not eligible under the ReConnect Program, but middle-mile facilities are eligible if they are needed to bring sufficient broadband service to all residences and buildings in the area.
 - There is a cost share requirement of 25% of the overall project cost.
 - You are strongly encouraged to include detailed information in your requests, including the number of households, businesses, or farms served, the level of service that will be offered, and whether healthcare or educational facilities will be served.
 - You can view all required ReConnect policies and regulations, including environmental and related reviews, [here](#) or view more information about the program [here](#).
 - Please contact the State Rural Development Office to discuss the project and confirm eligibility. Contact information is included in resources below.
- **Cost Guidelines:** In Fiscal Year 23, the average funding level was nearly \$1.2 million. The Committee may consider different funding caps this year.
- **Resources:** The State Rural Development Office is a valuable resource to answer program questions. You can find contact information for the Washington state office [here](#). If you are not receiving a response or they are unable to answer specific questions, please contact our office.

Distance Learning and Telemedicine (DLT) Grants

- **Department:** Department of Agriculture
- **Agency:** Rural Development
- **Description:** Distance Learning and Telemedicine (DLT) grants help rural residents better utilize modern telecommunications by acquiring the technology and training necessary to connect educational and medical professionals with students, teachers, and patients in rural areas.
- **Eligible Projects:** Eligible uses include audio and video equipment, broadband facilities that support distance learning or telemedicine (not actual broadband), computer hardware, network components, software or instructional programming.
- **Details and Requirements:**
 - The program is intended to serve rural areas with populations of 20,000 or less.
 - The program requires a 15% cost sharing match that cannot come from another federal source.
 - You are strongly encouraged to provide as much detail as possible on how the award will be utilized, what equipment or service will be acquired and information on the population(s) served.
 - You can view the regulations for this account [here](#).
 - Please contact the State Rural Development Office to discuss the project and confirm eligibility. Contact information is included in resources below.

- **Cost Guidelines:** Competitive awards typically range from \$50,000 to \$1,000,000 and the Committee considered projects in this range in Fiscal Year 2023. The Committee may consider different funding caps this year.
- **Resources:** The State Rural Development Office is a valuable resource to answer program questions. You can find contact information for the Washington state office [here](#). If you are not receiving a response or they are unable to answer specific questions, please contact our office.

Water and Waste Disposal Grants

- **Department:** Department of Agriculture
- **Agency:** Rural Development
- **Description:** This account will fund water and waste disposal projects.
- **Eligible Projects:** Funding can be used to finance:
 - Acquisition, construction or improvement of drinking water sourcing, treatment, storage and disposal
 - Sewer collection, transmission, treatment and disposal
 - Solid waste collection, disposal and closure
 - Storm water collection, transmission, and closure
- **Details and Requirements:**
 - Projects must serve rural areas and towns with a population of 10,000 or less or Tribal lands in rural areas.
 - Projects require a 25% non-federal cost share.
 - Please provide information on the number of households and businesses served and details about the exact work that will be completed.
 - Please contact the State Rural Development Office to discuss the project and confirm eligibility. Contact information is included in resources below.
- **Cost Guidelines:** This account was not previously eligible for Community Project Funding. The Committee did not include cost guidelines or caps.
- **Resources:** The State Rural Development Office is a valuable resource to answer program questions. You can find contact information for the Washington state office [here](#). If you are not receiving a response or they are unable to answer specific questions, please contact our office.

Agricultural Research Service Buildings and Facilities

- **Department:** Department of Agriculture
- **Agency:** Agricultural Research Service (ARS)
- **Description:** ARS owns and operates laboratories and facilities across the United States. Requests must be for ARS-owned facilities or facilities that will enhance ongoing ARS research.
- **Eligible Projects:** Eligible uses include the acquisition of land, construction, repairs, improvements, extensions, alterations, and purchases of fixed equipment or facilities.
- **Details and Requirements:**
 - There are three ARS facilities in Washington state, none of which are within the district: [Wenatchee](#), [Wapato](#) and [Pullman](#).
 - Although none of the ARS facilities are within the district, other facility requests could potentially be eligible if it would support ongoing ARS research.
 - Requests for ARS-owned facilities will be given priority for funding.

- You are strongly encouraged to provide details on the research that would be conducted, why the research is a high priority, how the funding would modernize and improve the research conducted and why it is critical in carrying out ARS research.
- **Resources:** Reach out to the relevant ARS facility for more information and to see whether your facility request would be eligible. If the ARS facility is unable to answer any specific questions, please contact our office.

NRCS Conservation Operations

- **Department:** Department of Agriculture
- **Agency:** Natural Resources Conservation Service (NRCS)
- **Description:** NRCS supports private landowners, conservation districts and other organizations to conserve, maintain and improve the Nation’s natural resources.
- **Eligible Projects:** Eligible uses include projects that will reduce soil erosion, improve soil health, enhance water supplies, improve water quality, increase wildlife habitat, and reduce damage caused by floods and other natural disasters.
- **Details and Requirements:**
 - You are strongly encouraged to provide details on the project scope, including if the project will conduct surveys, investigations, or research, and if there is a plan to publish the results of any such work.
 - You should also describe any preventive measures to be taken, such as engineering operations, methods of cultivation, or changes in use of land.
 - The Subcommittee will only consider State, local or Tribal governments and public conservation districts as recipients. Non-profit recipients will not be considered.
- **Cost Guidelines:** In Fiscal Year 23, the average funding level was about \$1.3 million. The Committee may consider different funding caps this year.
- **Resources:** The Washington State Natural Resources Conservation Service is a valuable resource to answer program questions. You can find contact information for the Washington state office [here](#). If you are not receiving a response or they are unable to answer specific questions, please contact our office.

Commerce, Justice, Science and Related Agencies Subcommittee

You can view Committee Guidance for the Commerce, Justice, Science and Related Agencies Subcommittee [here](#) or read a detailed summary below:

Scientific and Technical Research and Services

- **Department:** Department of Commerce
- **Agency:** National Institute of Standards and Technology (NIST)
- **Description:** Projects will support standards-related research and technology development.
- **Eligible Projects:** Funding must be used for activities consistent with and supportive of NIST's mission and within its authorities as defined [here](#).
- **Details and Requirements:**
 - This account does not fund building construction or renovation.
- **Cost Guidelines:** The median award in this account for Fiscal Year 2022 was \$1,250,000. After reviewing all project requests received for fiscal year 2024, the Chair will determine what, if any, caps to place on project amounts. Targeted projects of modest size can have meaningful impact for communities and likely have a greater chance of being funded.
- **Resources:** Please reach out to our office if you have any questions about this account.

NOAA Coastal Zone Management

- **Department:** Department of Commerce
- **Agency:** National Oceanic and Atmospheric Administration (NOAA)
- **Description:** Projects will support the protection, restoration and responsible development of our nation's diverse coastal communities and resources.
- **Eligible Projects:** Projects must be aligned with one or more of the purposes described in the [Coastal Zone Management Act](#).
- **Details and Requirements:**
 - Any project must be aligned with NOAA's [mission](#).
 - Historically, the Committee has not funded vehicles or building construction or renovation under this account. This account cannot fund any construction projects.
 - The subcommittee will not entertain requests for community project funding through the Office of Marine and Aviation Operations.
 - Coastal Zone Management funds are distributed to states on a formula basis and will not be considered for community project funding.
- **Cost Guidelines:** This account was not eligible for funding in Fiscal Year 2023. After reviewing all project requests received for fiscal year 2024, the Chair will determine what, if any, caps to place on project amounts. Targeted projects of modest size can have meaningful impact for communities and likely have a greater chance of being funded.
- **Resources:** Please reach out to our office if you have any questions about this account.

State and Local Law Enforcement Assistance - Byrne Justice Assistance Grant

- **Department:** Department of Justice
- **Agency:** Bureau of Justice Assistance
- **Description:** Byrne Justice Assistance Grants (JAG) assist state, local, and tribal law enforcement prevent crime, improve the criminal justice system, provide victims' services and other related activities.

- **Eligible Projects:** In general, JAG funds may be used to provide additional personnel, equipment, supplies, contractual support, training, technical assistance, and information systems for criminal justice or civil proceedings, including for one or more of the following categories:
 - Law enforcement programs
 - Prosecution and court programs
 - Prevention and education programs
 - Corrections and community corrections programs
 - Drug treatment and enforcement programs
 - Planning, evaluation, and technology improvement programs
 - Crime victim and witness programs (other than compensation)
 - Mental health programs and related law enforcement and corrections programs, including behavioral programs and crisis intervention teams
 - Implementation of state crisis intervention court proceedings and related programs, including but not limited to mental health courts, drug courts, veterans courts and extreme risk protection order programs
 - You can go [here](#) for more information about eligible uses.
- **Details and Requirements:**
 - The Committee will not accept requests for:
 - Any security enhancements or any equipment to any nongovernmental entity that is not engaged in criminal justice or public safety
 - Vehicles
 - Luxury items
 - Real estate
 - Construction projects other than penal or correctional institutions; only smaller penal and correctional institution construction requests that are within the capability of single-year funding will be allowable
 - Initiatives that involve the distribution of drug paraphernalia
 - Initiatives that undermine the 2nd Amendment or infringe upon rights guaranteed by the Constitution without due process of law
 - Initiatives that appear to be anti-law enforcement or unrelated to criminal justice
 - The Committee will prioritize projects focused on improving the effectiveness of law enforcement, increasing officer safety, curbing the opioid crisis and other strategic priorities.
 - You can view an [overview of the JAG program](#) or a list of [Frequently Asked Questions](#) for more information.
 - You can go [here](#) for more information on allowable costs and to answer other questions.
- **Cost Guidelines:** The median award in this account for Fiscal Year 2022 was \$500,000. After reviewing all project requests received for fiscal year 2024, the Chair will determine what, if any, caps to place on project amounts. Targeted projects of modest size can have meaningful impact for communities and likely have a greater chance of being funded.
- **Resources:** Please reach out to our office if you have any questions about this account.

Community Oriented Policing Services - Technology and Equipment

- **Department:** Department of Justice
- **Agency:** Community Oriented Policing Services (COPS)
- **Description:** COPS Technology and Equipment (COPS Tech) grants assist state, local, and tribal law enforcement in developing and procuring the technology and equipment needed to respond more quickly and effectively, improve officer safety, increase transparency and enhance community relations.
- **Eligible Projects:** This funding can be used by State, Tribal and local law enforcement agencies to develop and/or acquire technologies and equipment, such as interoperable communications technologies, modernized criminal record technology and forensic technology. Technology can be used to help prevent crime rather than react to crime.
- **Details and Requirements:**
 - Eligible recipients include State, Tribal and local law enforcement agencies.
 - The Committee will not fund building construction or renovation under this account.
- **Cost Guidelines:** The median award in this account for Fiscal Year 2022 was \$520,000. After reviewing all project requests received for fiscal year 2024, the Chair will determine what, if any, caps to place on project amounts. Targeted projects of modest size can have meaningful impact for communities and likely have a greater chance of being funded.
- **Resources:** Please reach out to our office if you have any questions about this account.

NASA Safety, Security, and Mission Services

- **Department:** National Aeronautics and Space Administration
- **Description:** This account supports science education, research and technology development related to NASA's mission.
- **Eligible Projects:** Projects should focus on science, education, research, and technology development and advance one of the purposes described [here](#).
- **Details and Requirements:**
 - Funding for building construction, renovation projects and medical research will not be considered for community project funding.
- **Cost Guidelines:** The median award in this account for Fiscal Year 2022 was \$900,000. After reviewing all project requests received for fiscal year 2024, the Chair will determine what, if any, caps to place on project amounts. Targeted projects of modest size can have meaningful impact for communities and likely have a greater chance of being funded.
- **Resources:** Please reach out to our office if you have any questions about this account.

Energy and Water Development and Related Agencies Subcommittee

You can view Committee Guidance for the Energy and Water Development and Related Agencies Subcommittee [here](#) or read a detailed summary below:

U.S. Army Corps of Engineers

- **Department:** Department of Defense/U.S. Army
- **Agency:** U.S. Army Corps of Engineers
- **Description:** This account will fund authorized Army Corps of Engineers projects. All funding will go to the Corps to undertake the project.
- **Eligible Projects:** The subcommittee will only consider community project funding requests in the following Army Corps accounts:
 - Investigations
 - Construction
 - Mississippi River and Tributaries
 - Operation and Maintenance
- **Details and Requirements:**
 - Only authorized Army Corps projects where the scope of work is included within existing authorization are eligible for funding. Please include the statutory citation when submitting the project.
 - If the project is authorized in a manner other than an individual project authorization or under the Corps of Engineers Continuing Authorities Program, please contact our office for help determining whether the project is eligible.
 - All Army Corps requests should reflect a funding amount that can be realistically utilized in Fiscal Year 2024.
 - The subcommittee may provide funding for a very limited number of new start projects.
 - Please contact the Army Corps to discuss the project and confirm eligibility. Contact information is included in resources below.
- **Resources:** If you need help determining whether a project is authorized or have any questions, contact the Army Corps [Seattle District](#). If you are not receiving a response or they are unable to answer specific questions, please contact our office.

U.S. Bureau of Reclamation

- **Department:** Department of Interior
- **Agency:** U.S. Bureau of Reclamation
- **Description:** This account will fund authorized Bureau of Reclamation projects. All funding will go to Reclamation to undertake the project.
- **Eligible Projects:** The subcommittee will only consider Water and Related Resources projects.
- **Details and Requirements:**
 - Only authorized Reclamation projects where the scope of work is included within existing authorization are eligible for funding. Please include the statutory citation when submitting the project.
 - If the project is authorized in a manner other than an individual project authorization, please contact our office for help determining whether the project is eligible.
 - All Reclamation requests should reflect a funding amount that can be realistically utilized in Fiscal Year 2024.

- Projects authorized under sections 4007, 4009(a), and 4009(c) of the Water Infrastructure Improvements Act for the Nation (WIIN) Act of 2016 will not be accepted. These sections are related to water storage and desalination projects, as well as planning, design and construction for projects that have been studied in nonfederal feasibility studies; you can find more information about these sections [here](#).
- Please contact the Bureau of Reclamation to discuss the project and confirm eligibility. Contact information is included in resources below.
- **Resources:** If you need help determining whether a project is authorized or have any questions, contact the Bureau of Reclamation's [Columbia-Pacific Northwest Region](#). If you are not receiving a response or they are unable to answer specific questions, please contact our office.

Homeland Security Subcommittee

You can view Committee Guidance for the Homeland Security Subcommittee [here](#) or read a detailed summary below:

Pre-Disaster Mitigation Projects

- **Department:** Department of Homeland Security
- **Agency:** Federal Emergency Management Agency
- **Description:** This account will fund projects that assist state, local, tribal, and territorial governments with planning and implementing sustainable, cost-effective measures to provide long-term, permanent risk reduction to individuals and property from future natural hazards, such as floods and wildfires, while reducing reliance on federal funding for future disasters.
- **Eligible Projects:** Eligible projects must meet all project requirements detailed in the most recent Notice of Funding Opportunity (NOFO) for the [Building Resilient Infrastructure and Communities](#) program. Eligible projects include:
 - Capability and Capacity Building Activities – Projects that enhance the knowledge, skills, expertise of the current workforce to expand or improve the administration of mitigation assistance, including building codes activities, partnerships, project scoping, hazard mitigation planning and planning-related activities, and other activities
 - Hazard Mitigation Projects (Construction) – Cost-effective projects designed to increase resilience and public safety, reduce injuries and loss of life, and reduce damage and destruction to property, critical services, facilities and infrastructure (including natural systems) from a multitude of natural hazards and the effects of climate change
 - Management Costs – Financial assistance to reimburse the recipient and subrecipient for eligible and reasonable indirect costs, direct administrative costs and other administrative expenses associated with a specific mitigation measure or project for up to 15 percent of the total amount of the grant award
- **Details and Requirements:**
 - You cannot use grant funding for dredging waterways or the purchase of emergency vehicles and equipment.
 - You must provide a letter from Washington Emergency Management confirming project eligibility and their willingness to administer the grant.
 - Washington Emergency Management or the Tribal government requesting the funds must submit an application to FEMA and serve as the administrative agent for the grant on behalf of the entities responsible for the project (grant subrecipients).
 - Funding can only cover 75 percent of the total cost of the project – the remaining 25 percent of costs must come from non-federal sources. Small, impoverished communities may be eligible for up to a 90 percent federal cost-share for their mitigation planning and project sub-applications.
 - Please provide a detailed description of the project.
 - You will need to provide a Benefit-Cost Analysis (BCA) or other documentation that validates cost-effectiveness, which is defined by FEMA as having a BCA of 1.0 or greater? A non-FEMA BCA methodology may only be used if pre-approved by FEMA in writing.
 - Please share the minimum amount of federal funding needed for the project to advance if it is not feasible to fund the full amount requested.

- Although the NOFO states that projects must be included in Appendix A of the NOFO linked above, this is not required for Community Project Funding.
- **Cost Guidelines:** In FY23, projects under this account ranged between \$320,482 and \$10,000,000. The Committee may consider different funding ranges this year.
- **Resources:** You can reach out to [Washington State Emergency Management](#) and [FEMA Region 10](#) for more information. If you are not receiving a response or they are unable to answer specific questions, please contact our office.

Emergency Operations Center Grant Program

- **Department:** Department of Homeland Security
- **Agency:** Federal Emergency Management Agency
- **Description:** This account will fund projects that improve emergency management and preparedness capabilities by supporting flexible, sustainable, secure, strategically located, and fully interoperable Emergency Operations Centers (EOCs) with a focus on addressing identified deficiencies and needs.
- **Eligible Projects:** Eligible projects must meet all project requirements detained in the most recent Notice of Funding Opportunity (NOFO) for the [Emergency Operations Center Grant Program](#). Funding can be used to equip, upgrade and/or construct EOCs to provide fully capable facilities to ensure continuity of operations and continuity of government in major disasters or emergencies.
- **Details and Requirements:**
 - EOC is defined as a “facility or capability from which direction and control is exercised in an emergency. This type of center or capability is designated to ensure that the capacity exists for leadership to direct and control operations from a centralized facility or capability in the event of an emergency.”
 - Funding cannot be used for personnel costs, replacement radios for police, fire and other response personnel, generators for emergency shelters or any equipment that is portable and does not directly support the functional and operational capabilities of an EOC.
 - You must provide a letter from Washington Emergency Management confirming project eligibility and their willingness to administer the grant.
 - If the EOC request involves construction of a multipurpose facility, such as a public safety building or police/fire station, the CPF request must limit costs to only the square footage directly associated with the EOC and not the entire facility.
 - Washington Emergency Management or the Tribal government requesting the funds must submit an application to FEMA and serve as the administrative agent for the grant on behalf of the entities responsible for the project (grant subrecipients).
 - Funding can only cover 75 percent of the total cost of the project – the remaining 25 percent of costs must come from non-federal sources.
 - Please provide a detailed description of the project.
 - Although the NOFO states that projects must be included in [Appendix A](#) of the NOFO linked above, this is not required for Community Project Funding.
- **Cost Guidelines:** In FY23, projects under this account ranged between \$158,176 and \$3,000,000. The Committee may consider different funding ranges this year.

- **Resources:** You can reach out to [Washington State Emergency Management](#) and [FEMA Region 10](#) for more information. If you are not receiving a response or they are unable to answer specific questions, please contact our office.

Interior, Environment and Related Agencies Subcommittee

You can view Committee Guidance for the Interior, Environment and Related Agencies Subcommittee [here](#) or read a detailed summary below:

State and Tribal Assistance Grants – Clean Water State Revolving Fund

- **Department:** Environmental Protection Agency
- **Description:** State and Tribal Assistance Grants (STAG) fund local clean water/wastewater infrastructure projects.
- **Eligible Projects:** These grants fund construction of and modifications to municipal sewage treatment plants and associated infrastructure. Projects that are generally eligible for Clean Water/Wastewater STAG grants include:
 - Wastewater treatment plants, including sludge handling facilities - Upgraded (increase in treatment level) or expanded (increase in treatment capacity) facilities, including biological facilities, mechanical, a lagoon system, a land treatment system, or individual on-site systems.
 - Collector Sewers - Small sewers that convey wastewater from residences, commercial establishments, and industrial sites to larger interceptor sewers.
 - Interceptor Sewers - Large sewers that convey wastewater from collector sewers directly to a wastewater treatment facility.
 - Sewer Pipes - Rehabilitation is eligible only if pipes are publicly owned.
 - Outfall Sewer - A sewer that conveys treated wastewater from a wastewater treatment facility to the receiving waters (i.e., a river, stream, lake, ocean, etc.).
 - Stormwater Management - Measures to manage, reduce, treat, or recapture stormwater or subsurface drainage water (i.e. storm sewers, green infrastructure, etc.).
 - Combined sewer overflow (CSO) control and sanitary sewer overflow (SSO) control - Combined sewers are sewers that convey both wastewater and storm water and may overflow during periods of heavy rain. The costs to correct CSO and SSO overflow problems are eligible.
 - Infiltration/Inflow Correction - Construction activities that prevent surface water or groundwater from entering the sewer system.
 - Water Security - These projects include installation or upgrade of physical security infrastructure such as lighting, fencing, monitoring and access control. Also, cybersecurity measures, installation of safer treatment technologies, and more secure storage of on-site treatment.
 - Septic Tanks - Remediation, rehabilitation, removal and replacement of failing tanks are eligible, as well as installation of new tanks where none had previously existed.
 - Land - The leasing and fee-simple purchase of land, including surface and subsurface easements, needed to locate eligible municipal or tribal projects, and land integral to the treatment process (e.g., land for effluent application or recharge basins), and a place to store equipment and material during POTW construction. Municipal purchase of land and/or conservation easements for source water protection are also eligible.

- Water Reuse - Projects involving the municipal reuse or recycling of wastewater, stormwater, or subsurface drainage water. This includes but is not limited to the purchase and installation of treatment equipment sufficient to meet reuse standards, distribution systems to support effluent reuse, recharge transmission lines, injection wells, and equipment to reuse effluent (e.g., gray water, condensate, and wastewater effluent reuse systems).
- Capital Nonpoint Source Pollution Control Projects – e.g., river or streambank restoration, agricultural best management practices (i.e., buffer strips, manure containment structures), wetlands restoration, etc.
- **Details and Requirements:**
 - Projects must be otherwise eligible for Washington’s [Clean Water](#) State Revolving Fund (SRF) loan program.
 - Projects that are generally NOT eligible for Clean Water/Wastewater STAG grants include:
 - Land, except for projects described in the eligibility section above
 - Operations and maintenance costs
 - Non-municipal point source control
 - Acid rain drainage correction
 - Ambient water quality monitoring
 - Flood control projects, unless the project is otherwise managing, reducing, treating, or recapturing stormwater
 - Privately owned sewer pipes
 - There is a minimum 20% non-federal cost share requirement for any portion of a project funded through a STAG infrastructure grant. In almost all cases, other Federal funds cannot be used to meet this 20% cost share. However, assistance provided by a SRF does count towards the project’s matching requirement.
 - The Committee will look favorably upon requests for projects that are listed on a state’s most recent Intended Use Plans for their [Clean Water](#) SRFs.
 - Privately-owned projects are NOT eligible for infrastructure grants, even if they are otherwise eligible for assistance under a SRF program.
- **Cost Guidelines:** In FY 2023, most EPA STAG infrastructure projects funded in the House bill ranged from \$45,000 - \$5,000,000. The Committee may consider higher project amounts for fiscal year 2024, and any caps will be determined by the Chairman after reviewing the full universe of requests.
- **Resources:** Please reach out to our office if you have any questions about this account.

State and Tribal Assistance Grants – Drinking Water State Revolving Fund

- **Department:** Environmental Protection Agency
- **Description:** State and Tribal Assistance Grants (STAG) fund local drinking water infrastructure projects.
- **Eligible Projects:** These grants fund construction of and modifications to drinking water treatment plants and associated infrastructure. Projects that are generally eligible for Drinking Water STAG grants include:
 - Facilitate compliance with national primary drinking water regulations or address serious risks to public health including non-regulated contaminants (i.e. PFAS).

- Rehabilitate or develop water sources (excluding reservoirs, dams, dam rehabilitation and water rights) to replace contaminated sources.
- Install or upgrade treatment facilities.
- Install or upgrade storage facilities, including finished water reservoirs, to prevent microbiological contaminants from entering the water system.
- Install or replace transmission and distribution pipes to prevent contamination caused by leaks or breaks in the pipe, or improve water pressure to safe levels.
- Projects to consolidate water supplies – for example, when individual homes or other public water supplies have a water supply that is contaminated, or the system is unable to maintain compliance for financial or managerial reasons – are eligible for DWSRF assistance.
- Land is eligible only if it is integral to a project that is needed to meet or maintain compliance and further public health protection.
- Project planning, design and other related costs.
- **Details and Requirements:**
 - Projects must be otherwise eligible for Washington’s [Drinking Water](#) State Revolving Fund (SRF) loan programs.
 - Projects that are generally NOT eligible for Drinking Water STAG grants include:
 - Dams or rehabilitation of dams
 - Operations and maintenance costs
 - Water rights, except if the water rights are owned by a system that is being purchased through consolidation as part of a capacity development strategy or if the water rights purchase is covered by EPA’s DWSRF Class Deviation for Water Rights 2019
 - Reservoirs, except for finished water reservoirs and those reservoirs that are part of the treatment process and are located on the property where the treatment facility is located
 - Laboratory fees for monitoring
 - Projects needed mainly for fire protection
 - Projects for systems that lack adequate technical, managerial, and financial capability, unless assistance will ensure compliance
 - Projects for systems in significant noncompliance, unless funding will ensure compliance
 - Projects primarily intended to serve future growth
 - There is a minimum 20% non-federal cost share requirement for any portion of a project funded through a STAG infrastructure grant. In almost all cases, other Federal funds cannot be used to meet this 20% cost share. However, assistance provided by a SRF does count towards the project’s matching requirement.
 - The Committee will look favorably upon requests for projects that are listed on a state’s most recent Intended Use Plans for their [Drinking Water](#) SRFs.
 - Privately-owned projects are NOT eligible for infrastructure grants, even if they are otherwise eligible for assistance under a SRF program.

- **Cost Guidelines:** In FY 2023, most EPA STAG infrastructure projects funded in the House bill ranged from \$45,000 - \$5,000,000. The Committee may consider higher project amounts for fiscal year 2024, and any caps will be determined by the Chairman after reviewing the full universe of requests.
- **Resources:** Please reach out to our office if you have any questions about this account.

Military Construction, Veterans Affairs and Related Agencies Subcommittee

You can view Committee Guidance for the Military Construction, Veterans Affairs and Related Agencies Subcommittee [here](#) or read a detailed summary below:

Military Construction Accounts

- **Department:** Department of Defense
- **Description:** This account provides funding for construction of military projects.
- **Eligible Projects:** Projects must be included under one of the following categories:
 - Construction and Unspecified Minor Construction – Active Components: Eligible community project requests include minor military construction projects that have an approved cost equal to or less than \$9,000,000 under any of the following accounts:
 - Army
 - Navy and Marine Corps
 - Air Force
 - Space Force
 - Defense-Wide Agencies (Special Operations Command (SOCOM), Defense Logistics Agency (DLA), etc.)
 - Construction and Unspecified Minor Construction – Reserve Components: Eligible community project requests include minor military construction projects that have an approved cost equal to or less than \$9,000,000 under any of the following accounts:
 - Army National Guard
 - Air National Guard
 - Army Reserve
 - Navy Reserve
 - Air Force Reserve
 - Planning and Design: Planning and design funding can be requested for specific projects when they are not yet at 35 percent design and therefore ineligible for construction funding. The types of projects under this heading include improving facility resilience, study, planning, design, and architect and engineer services for the accounts listed below:
 - Army
 - Navy and Marine Corps
 - Air Force
 - Space Force
 - Defense-Wide Agencies (SOCOM, DHA, etc.)
 - Army National Guard
 - Air National Guard
 - Army Reserve
 - Navy Reserve
 - Air Force Reserve
- **Details and Requirements:**
 - The subcommittee will not consider requests for community projects unless they appear on a list provided to Congress by the Secretary of Defense or his/her designee. Eligible lists include:

- FY24-FY28 Future Year Defense Program (FYDP). The FYDP listing the military construction projects can be obtained under the [Under Secretary of Defense website under the Budget Materials section](#). The information for FY24 is not yet available as of March 1, 2023.
 - Unfunded Requirements/Unfunded Priorities Lists (UFRs/UPLs). UFRs/UPLs are available to Congress within ten days of the release of the President’s budget.
- Projects suggested by an installation or unit commander that are not included on one of the lists above will not be accepted.
- Some Reserve Component projects will require a state funding match. Requesting offices must determine whether the proposed project requires such a match and if so, confirm that the project has current State match funding before the request can be considered. The committee cannot waive match requirements.
- If the project is included in the President’s budget request, it should not be submitted as Community Project Funding.
- To be eligible for the construction accounts, requested projects must have at least 35 percent of its design completed and be able to obligate funds in Fiscal Year 2024. Projects cannot be for multiyear funding.
- If projects have not been previously authorized, requests must also be submitted to the House Armed Services Committee (HASC) for inclusion in the Fiscal Year 2024 National Defense Authorization Act (NDAA). Previous authorizations expire after three fiscal years.
- All projects must have a corresponding DD Form 1391, which is used by DoD to submit requirements and justifications in support of funding requests for military construction to Congress. Our office can help you acquire this document.
- **Cost Guidelines:** The Committee may limit the number and amount of any Community Project Funding in FY24, based upon the availability of funds. Any caps will be determined by the Chair after reviewing the full universe of requests.
- **Resources:** Please reach out to our office if you have any questions about this account.

Transportation, Housing and Urban Development Subcommittee

Airport Improvement Program

- **Committee Guidance:** You can view Committee Guidance for the Airport Improvement Program (AIP) [here](#).
- **Department:** Department of Transportation
- **Agency:** Federal Aviation Administration
- **Description:** AIP grants provide funding for the planning and development of public-use airports that are included in the National Plan of Integrated Airport Systems.
- **Eligible Projects:** Eligible projects include those improvements related to enhancing airport safety, capacity, security, and environmental concerns. In general, sponsors can get AIP funds for most airfield capital improvements or rehabilitation projects and in some specific situations, for terminals, hangars, and nonaviation development. Certain professional services that are necessary for eligible projects (such as planning, surveying, and design) can also be eligible. Examples of eligible projects include:
 - Runway, taxiway or apron construction/rehabilitation
 - Airfield lighting or signage
 - Airfield drainage
 - Land acquisition
 - Weather observation stations (AWOS)
 - NAVAIDs such as REILs and PAPIs
 - Planning or environmental studies
 - Safety area improvements
 - Airport layout plans (ALPs)
 - Access roads located entirely on airport property
 - Removing, lowering, moving, marking and lighting hazards
 - Glycol Recovery Trucks/Glycol Vacuum Trucks, if owned and operated by the airport and bought under Buy American Preference requirements
- **Details and Requirements:**
 - [Eligible airports](#) within WA's Second Congressional District include Anacortes Airport, Bellingham International Airport, Skagit Regional Airport, Orcas Island Airport, Paine Field, Friday Harbor Airport, Whidbey Air Park and Lopez Island Airport.
 - Ineligible projects include:
 - Operational costs, such as salaries, equipment, and supplies
 - Maintenance equipment and vehicles
 - Office and office equipment
 - Fuel farms, except certain projects at some non-primary airports
 - Landscaping
 - Artworks
 - Aircraft hangars, except certain projects at some non-primary airports
 - Industrial park development
 - Marketing plans
 - Training
 - Improvements for commercial enterprises
 - Maintenance or repairs of buildings
 - AIP grants have cost share requirements:

- For large and medium primary hub airports, the grant covers 75 percent of eligible costs (or 80 percent for noise program implementation)
 - For small primary, reliever and general aviation airports, the grant covers a range of 90-95 percent of eligible costs, based on statutory requirements.
 - The project must meet federal requirements, including Buy America, contracting competition requirements and the National Environmental Policy Act.
 - You can read more about AIP requirements [here](#).
 - Please reach out to the local FAA office to ensure project eligibility.
- **Cost Guidelines:** The Committee considered projects up to \$7 million in Fiscal Year 2023. The Committee may consider different funding caps this year.
- **Resources:** FAA's [Northwest Mountain Regional Airports Division](#) is a valuable resource to answer program questions. If you are not receiving a response or they are unable to answer specific questions, please contact our office.

Highway Infrastructure Projects

- **Committee Guidance:** You can view Committee Guidance for Highway Infrastructure Projects [here](#).
- **Department:** Department of Transportation
- **Agency:** Federal Highway Administration
- **Description:** This account will fund projects eligible under the Surface Transportation Block Grant Program, as amended by the Bipartisan Infrastructure Law.
- **Eligible Projects:** Eligible projects include:
 - Construction of highways, bridges, tunnels, ferry boats and terminals
 - Transit capital projects
 - Infrastructure-based intelligent transportation systems capital improvements, including the installation of vehicle-to-infrastructure communication equipment
 - Truck parking facilities
 - Border infrastructure projects
 - Wildlife crossing structures
 - Operational improvements and capital and operating costs for traffic monitoring, management, and control facilities and programs
 - Highway and transit safety infrastructure improvements and programs
 - Recreational trails projects including maintenance and restoration of existing recreational trails, pedestrian and bicycle projects, and modifications to comply with accessibility requirements under the Americans with Disabilities Act
 - Several other eligible projects as detailed in [section E of this FHWA memorandum](#)
- **Details and Requirements:**
 - All projects must be capital projects or project-specific planning/design for a capital project.
 - Highway Infrastructure Projects have a non-Federal cost share requirement calculated on a sliding scale. The standard federal share is 90% for a project on the Interstate system and 80% for any other project, but there are a number of exceptions and adjustments to the standard federal share that can be found [here](#).
 - The project must meet federal requirements, including Buy America, contracting competition requirements and the National Environmental Policy Act.

- The subcommittee will not fund activities that are administrative in nature even if they are eligible expenses under the statutory citation, including general operating expenses.
- Please reach out to the Washington State Department of Transportation to ensure your project meets eligibility requirements.
- **Cost Guidelines:** Committee considered project costs up to \$7 million in Fiscal Year 2023. The Committee may consider different funding caps this year.
- **Resources:** Please reach out to the [Washington State Department of Transportation \(WSDOT\)](#) if you have any questions about this account. If you are not receiving a response or they are unable to answer specific questions, please contact our office.

Transit Infrastructure Projects

- **Committee Guidance:** You can view Committee Guidance for Transit Infrastructure Projects [here](#).
- **Department:** Department of Transportation
- **Agency:** Federal Transit Administration
- **Description:** This account funds transit capital projects or planning and design for a transit capital project.
- **Eligible Projects:** Eligible projects include projects that are eligible under the Buses and Bus Facilities Grant program, the Low or No Emission Grant Program, and capital projects as defined under Section 5302 of title 49 of United States Code:
 - Replacing, rehabilitating, purchasing, or leasing buses or related equipment
 - Rehabilitating, purchasing, constructing, or leasing bus-related facilities
 - Acquiring or leasing low or no emission vehicles
 - Constructing, rehabilitating or leasing facilities and related equipment to accommodate low or no emission vehicles
 - Acquiring, constructing, supervising, or inspecting equipment or a facility for use in public transportation
 - Expenses incidental to the acquisition or construction (including designing, engineering, location surveying, mapping, and acquiring rights-of-way)
 - Transit-related intelligent transportation systems
 - Relocation assistance, acquiring replacement housing sites, and acquiring, constructing, relocating and rehabilitating replacement housing
 - Rehabilitating or remanufacturing a bus
 - Overhauling rail rolling stock
 - Preventative maintenance
 - Leasing equipment or a facility for use in public transportation, in certain circumstances
 - Certain public transportation improvements, including commercial and residential development, pedestrian and bicycle access to a public transportation facility, construction, renovation, and improvement of intercity bus and intercity rail stations and terminals, and the renovation and improvement of historic transportation facilities
 - Other eligible projects as defined [here](#)

- **Details and Requirements:**
 - Public transportation or transit is defined as regular, continuing shared-ride surface transportation that is open to the general public or open to a segment of the general public defined by age, disability, or low income, and does not include intercity passenger rail transportation, intercity bus service, charter bus service, school bus service, sightseeing service, courtesy shuttle service for patrons of one or more specific establishments, or intra-terminal or intra-facility shuttle services.
 - The subcommittee will not fund activities that are administrative in nature even if they are eligible expenses under the statutory citation, including general operating expenses.
 - The project must meet federal requirements, including Buy America, contracting competition requirements and the National Environmental Policy Act.
 - In general, transit capital projects typically require a 20 percent non-federal share. This may vary depending on the project.
 - The subcommittee will not fund Capital Investment Grants (CIG) projects under Transit Infrastructure Projects.
- **Cost Guidelines:** The Committee considered project costs up to \$7 million in Fiscal Year 2023. The Committee may consider different funding caps this year.
- **Resources:** Please reach out to our office if you have any questions about this account.

Consolidated Rail Infrastructure and Safety Improvements

- **Committee Guidance:** You can view Committee Guidance for Consolidated Rail Infrastructure and Safety Improvements (CRISI) [here](#).
- **Department:** Department of Transportation
- **Agency:** Federal Railroad Administration
- **Description:** This account funds rail capital projects or systems planning for a rail capital project.
- **Eligible Projects:** Projects must be eligible under CRISI:
 - Deployment of railroad safety technology, including positive train control and rail integrity inspection systems
 - Acquisition, construction, improvements, or inspections of equipment, track and track structures, or a facility for use in or for the primary benefit of intercity passenger rail service or expenses incidental to the acquisition or construction (including designing, engineering, location surveying, mapping, environmental studies, and acquiring rights-of-way)
 - Improvements to short-line or regional railroad infrastructure
 - Communication and signalization improvements
 - Relocation assistance, acquiring replacement housing sites, and acquiring, constructing, relocating, and rehabilitating replacement housing
 - Rehabilitation, remanufacturing or overhaul rail rolling stock and facilities used primarily in intercity passenger rail service
 - Highway-rail grade crossing improvement projects
 - Rail line relocation or improvement projects
 - Preparation of regional rail and corridor service development plans and corresponding environmental analyses
 - Measures to prevent trespassing and reduce associated injuries and fatalities
 - Rehabilitation, remanufacturing, procurement, or overhauls of locomotives, provided that such activities result in a significant reduction of emissions

- Deployment of Magnetic Levitation Transportation projects
- Other eligible projects as defined [here](#)
- **Details and Requirements:**
 - The subcommittee will not fund activities that are administrative in nature even if they are eligible expenses under the statutory citation, including general operating expenses, rail-related research and workforce activities.
 - The project must meet federal requirements, including Buy America, contracting competition requirements and the National Environmental Policy Act.
 - Rail capital projects under the CRISI program require a minimum 20 percent non-federal share.
- **Cost Guidelines:** This is a new account for Community Project Funding. The Committee did not include expected cost guidelines.
- **Resources:** Please reach out to our office if you have any questions about this account.

Port Infrastructure Development Program

- **Committee Guidance:** You can view Committee Guidance for the Port Infrastructure Development Program (PIDP) [here](#).
- **Department:** Department of Transportation
- **Agency:** Maritime Administration (MARAD)
- **Description:** This account funds port infrastructure development projects that improve the safety, efficiency, or reliability of the movement of goods through ports and intermodal connections to ports.
- **Eligible Projects:** Projects must be eligible under PIDP, including capital projects that will improve the safety, efficiency or reliability of:
 - The loading and unloading of good at the port, such as for marine terminal equipment
 - The movement of goods into, out of, around, or within a port, such as for highway or rail infrastructure, intermodal facilities, freight intelligent transportation systems and digital infrastructure systems
 - Operational improvements, including projects to improve port resilience
 - Environmental and emissions mitigation measures
 - Shore power improvements at ports that service passenger vessels or vessels that move goods or freight
 - Other eligible projects as defined [here](#)
- **Details and Requirements:**
 - Priority will be given to projects at small inland river and coastal ports and terminals and to discrete, smaller-scale projects at larger ports and intermodal connections to ports.
 - The project must meet federal requirements, including Buy America, contracting competition requirements and the National Environmental Policy Act.
 - The Federal share of the total costs of an eligible PIDP projects generally may not exceed 80 percent with potential exceptions for small and rural area ports.
 - Please reach out to the Pacific Northwest MARAD office to determine project eligibility.
- **Cost Guidelines:** This is a new account for Community Project Funding. The Committee did not include expected cost guidelines.
- **Resources:** Please reach out to the [Pacific Northwest MARAD Office](#) if you have any questions about this account. If you are not receiving a response or they are unable to answer specific questions, please contact our office.

Economic Development Initiative (EDI)

- **Committee Guidance:** You can view Committee Guidance for Economic Development Initiative (EDI) [here](#).
- **Department:** Department of Housing and Urban Development
- **Description:** EDI projects may be used for economic and community development activities.
- **Eligible Projects:** The Committee excepts to fund the following types of projects and other similar projects:
 - Water or sewer infrastructure projects which are not otherwise eligible to be funded under EPA STAG (Interior) or Rural Water and Waste (Agriculture)
 - Local road infrastructure that is not otherwise eligible under Highway Infrastructure Projects
 - Streetscape improvements
 - Public or non-profit housing rehabilitation, housing development financing, residential conversions, and neighborhood revitalization projects, which would increase housing supply and/or improve housing affordability in the local community
 - Projects with a clear economic development benefit, such as workforce training centers and manufacturing incubators
 - Projects that meet a compelling local need consistent with the statutory purposes. For example, food banks in economically disadvantaged neighborhoods, youth and senior centers, and multipurpose community centers
- **Details and Requirements:**
 - Project uses are limited to:
 - Acquisition of real property (including air rights, water rights and other interests) which is:
 - Blighted, deteriorated, deteriorating, undeveloped or inappropriately development for community development and growth
 - Appropriate for rehabilitation or conservation activities
 - Appropriate for the preservation or restoration of historic sites, the beautification of urban land, conservation of open spaces, natural resources and scenic areas, provision of recreational opportunities or the guidance of urban development
 - Used for public works, facilities improves or other public purposes
 - Acquisition, construction, reconstruction or installation of public works, facilities and site or other improvements, including features that promote energy efficiency
 - Clearance, demolition, removal, reconstruction and rehabilitation of buildings and improvements
 - Special projects directed to the removal of material and architectural barriers which restrict the mobility and accessibility of elderly and handicapped people
 - Other criteria is defined in the Committee guidance [here](#)
 - Generally, the following types of activities are ineligible:
 - Acquisition, construction, or reconstruction of buildings for the general conduct of government
 - Museums, commemoratives, memorials
 - Swimming pools, water parks, golf courses
 - Healthcare facilities

- Venues strictly for entertainment purposes – e.g., theaters and performing art venues
- Projects must otherwise meet eligibility requirements under [Community Development Block Grants](#)
- Projects whose sole or primary purpose is for beautification or historic preservation will be disfavored without any evidence of other community development or economic development benefits
- **Cost Guidelines:** The average award in this account for Fiscal Year 2022 was \$1.5 million. The Committee may consider different funding caps this year.
- **Resources:** Please reach out to our office if you have any questions about this account.

Other Federal Funding Resources

Community Project Funding is very competitive and funding limitations or project eligibility may prevent many worthy projects from receiving funding. However, the federal government has many other discretionary funding sources available through competitive grants, loans and other opportunities.

Below are several resources that can be used to explore other federal funding opportunities:

- [Grants.gov](https://www.grants.gov)
 - Resource to search and apply for competitive grants from 26 federal agencies. Grants can be searched by agency, type of applicants, intended purpose and more.
- [SAM.gov](https://sam.gov)
 - Resource for people who make, receive and manage federal awards.
- [GovLoans.gov](https://www.govloans.gov)
 - Resource to find what loans or benefits you might be eligible for.
- [Benefits.gov](https://www.benefits.gov)
 - Resource to help you determine what government benefits you might be eligible for and how to apply.
- [USA.gov](https://www.usa.gov)
 - Resource for U.S. government information and services.
